

ANNE OF GREEN GABLES

ANNE OF GREEN GABLES follows the misadventures of a wildly independent orphan with fiery red hair and a temper to match. L.M. Montgomery's timeless classic, cherished by generations, comes to life in a new musical commissioned by the award-winning TheatreworksUSA.

Anne Shirley is mistakenly sent to live with a plainspoken farmer and his spinster sister, who thought they were adopting a boy! She wins over the Cuthberts, and all of Prince Edward Island, with her irrepressible spirit and imagination--and wins over audiences with the warm, poignant story about love, home and family.
